## Fleet Management Solutions

# ELD COMPLIANT SOLUTION

### INCREASE COMPLIANCE, IMPROVE EFFICIENCY,

### & GAIN VISIBILITY INTO YOUR BUSINESS.

The FleetLynx fleet management solution for heavy duty vehicles is designed for reliable long-term deployments in heavy duty vehicles with J1939 interfaces. The in-vehicle installed FleetLynx hardware is capable of accessing vehicle diagnostic data, tracking vehicle location, and detecting harsh braking, acceleration and more. With the optional FleetLynx Driver Services application, the solution is a fully complaint ELD solution which can be used for logging Hours of Services, performing pre and post trip inspections, tracking expenses and more.

With FleetLynx, creating fully complaint IFTA reports can be done with the click of a mouse.

## SUPERIOR TECHNOLOGY, COMPETITIVE PRICE

The FleetLynx solution provides you with actionable business intelligence you can use to increase productivity and reduce costs.  Whether you currently have fleet management solution or not, our team can help you in installing or migrating to a more advanced technology in an affordable manner.

## SOLUTION COMPONENTS

### FleetLynx Squad

The FleetLynx Squad is a robust GPS tracking device you can count on for fleet performance, fuel management, and driver safety. The FleetLynx Squad can connect to in-vehicle sensors using any of the hardware's 5 inputs. Installation is concealed to provide maximum theft protection.

### FleetLynx Driver Services

FleetLynx Squad with Driver Services provides you with a fully compliant ELD solution allowing you to monitor and prevent HOS violations before they happen. The FleetLynx Driver Services application can be downloaded on any IOS or Android device and doesn't require additional hardware.

### FleetLynx Web Portal

The FleetLynx web portal gives you the ability to stay in touch with your business while you're away from the office.  With our software, you get real-time locations on live interactive maps and comprehensive reporting tools. Fleet management has never been that simple.
